Lincoln Manufacturing Center

Lincoln Manufacturing Center: Elevating Thunderstone Manufacturing to New Heights

Thunderstone is excited to introduce its brand-new Lincoln Manufacturing Center, a 200,000 square-foot facility located in the Industrial Air Park of Lincoln, Nebraska. This \$22 million investment is a cornerstone in Thunderstone's strategy to enhance its production capabilities and lead the way in trailer innovation. Housing Thunderstone Manufacturing, Timpte Equipment Trailers, and the Timpte Parts Center, this cutting-edge facility is designed to revolutionize trailer manufacturing and meet the growing demands of our customers.

Setting a New Standard: Commitment to Excellence

As the new home of Thunderstone, the Lincoln Manufacturing Center isn't just about scaling up production—it's about redefining the standards of trailer quality. Thunderstone is deeply committed to creating the best products in the market, and this facility is central to achieving that goal. With an expanded production footprint and a host of new capabilities, we are ready to set the bar higher for the entire industry.

Our vertical integration strategy, paired with advanced systems, will ensure that every component meets the highest standards of quality, durability, and performance. The Lincoln Manufacturing Center will also play a pivotal role in expanding our product lineup, enabling Thunderstone to respond faster to market needs and introduce new, innovative product designs.

New Innovations: The Future of Trailer Manufacturing

At the heart of the Lincoln Manufacturing Center is an array of advanced manufacturing technologies that will set new industry benchmarks. This facility is designed to deliver higher-quality products through state-of-the-art equipment, ensuring precision and efficiency in every step of the production process.

Key features include:

- **Precision Cutting Technology:** Delivers ultra-precise cuts while minimizing material waste.
- **Machining Center:** Enhancing the speed and accuracy of metal machining operations.
- **Advanced Paint Line:** Ensuring flawless powder-coat finishes and improved durability for every component.
- **Vertical Integration:** Accelerating response times and boosting industry innovation by streamlining production. With enhanced control over every aspect of the manufacturing process, Thunderstone can quickly adapt, reduce delays, and improve overall efficiency.
- **Innovative Product Development Capabilities:** The new facility will serve as a hub for creating innovative new product designs, meeting the evolving needs of our customers.

These cutting-edge innovations will allow Thunderstone to drastically improve production capacity and lead the way in new product development, ensuring that we stay at the forefront of the manufacturing industry.

ONE-PIECE & STANDARD TARPS

Thunderstone Manufacturing is proud to announce that effective April 1, 2025, all One-piece tarps will transition to 123” wide instead of the current 117”. Since introduced in 2022, the one-piece tarp offering has quickly become the industry standard with proven high-quality performance.

Effective April 1, 2025, all standard black vinyl 123” and 129” 18 oz.& 22oz. tarps will transition to one-piece construction. The only panel tarps will be colored, mesh, ridgepole, end dump, etc. and speciality tarps.

CUSTOM & SPECIALITY TARPS

Don't see a tarp size listed within our catalog? Thunderstone Manufacturing has the ability to create customized tarps to fit your customer needs. Our team is happy to give a quote based on tarp dimension, weight, color, and material needs within 24 hours. Turnaround time may vary based on final tarp configuration.

COLORED SYSTEMS

Upgrade to a colored Thunder Power System kit now for the same price as mill finish! All full arm systems, and replacement parts, now cost the same as standard mill finish.

Colors Available for Thunder 7000 Power Tarp Arms

Black - 03

White - 04

Hammered Gray - 05

REDESIGNED TARP MOTOR

The Thunder Power Tarp System motor has been redesigned for improved functionality, ease of servicing, and change from oil to grease to prevent leaks.

Email Ordering Format:

Part Number - Brief Description - Quantity

You will receive a confirmation back on receipt of order within 24 hours

Shipping charges will be added to orders based on volumes and destination.

Please feel free to communicate directly with Thunderstone on any issues you have with quality, delivery, cost, or after sales support. We will be carrying these parts in large quantities at our Lincoln, NE facility and your lead-times will be short, 1-5 working days for most parts. Our goal is to always have the part on the shelf for your service and over the counter part requirements.

Thunderstone Manufacturing is please to announce an online e-commerce store will be rolling out in Q1 2025. Following launch, pricing shown online will supercede printed catalog prices when applicable.

EZFLOW[®]

Hydraulic Trap

The patented EZ Flow Hydraulic Trap™ System has been thoroughly tested to meet your tough hauling demands. From field to road there is no hydraulic or electric trap that compares to strength and reliability of the EZ Flow.

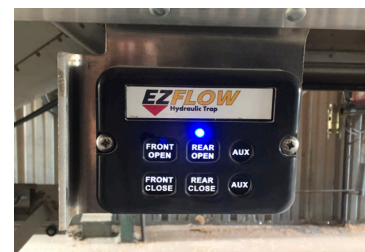

**Lead times may vary for EZ Flow Kits*

Features

- The operator can stay out of the dust by opening the traps from the cab of the truck, using the multi-function remote.
- Operates using a single 12 volt hydraulic motor
- Hydraulic hoses and stainless steel fittings for increased durability
- No trap operator or motor to interfere with swing auger
- Easily control product flow by feathering the door open and close
- Heavy duty reinforcement brackets for hi-density commodities (Frac Sand)
- Hydraulic motor and reservoir are protected in the apex of the trailer
- Quick release pins
- Simple 3 button remote design with large easy-to-read buttons
- Multi-function remote programs up to 5 trailer accessories
- Easy to install

Standard Remote

CALL FOR DIFFERENT SIZE CONFIGURATIONS**

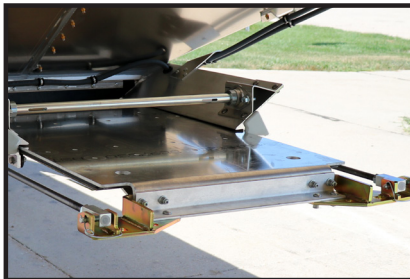

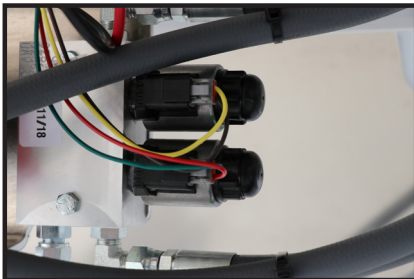

EZFLOW
Hydraulic Trap

OVERRIDE SYSTEM

In the event of an emergency due to electrical or mechanical issues the EZ Flow doors can be easily converted into manual operation. The emergency manual override utilizes quick release pins and straps to open the door. This new override system is not only easy to use, but provides additional ground clearance compared to previous override systems.

- Emergency Manual Override Includes**
- (2) Pre-Slotted Cross-Shaft
 - (2) Straps with Hooks
 - (1) Strap Enclosure with Bracket
 - (4) Cross-Shaft Mounts
 - (4) Composite Bushing with SS Housing Mounting Hardware

Features

- Aluminum tarp caps
- Heavy duty tarp bows & brackets
- Aluminum latch plate
- Pinless crank retainer with 11" standoff
- Stretch cord return
- Recessed tarp stops

Grain Cart Tarp Caps **Overlength charges may apply see page 5 for details.*

Features

- All-welded tarp technology
- Heat welded seams add strength & thickness to high stress areas
- Made of quality vinyl coated polyester fabric
- Watertight protection
- No stress points from stitching
- Mildew resistant
- Built-in UV inhibitors to reduce cracking & fading
- Puncture resistant (18oz.- 185lbs. & 22oz.- 225lbs.)
- Superior tear strength & abrasion resistant
- 1 year tarp limited warranty

Tarp Fabric Features

- Made of premium-grade woven PVC coated fabric
- Built-in UV inhibitors to reduce cracking and fading
- Rot & mildew resistant
- Superior tear strength and abrasion resistant
- Puncture resistant (18 oz.- 185lbs / 22 oz.- 225lbs)
- -30 degree cold crack protection

Tarp Assembly

- All-welded tarp technology (No Stitch Assembly)
- Heat-welded seams add strength and thickness to high stress areas
- Precision cut by CNC machine

Custom Tarps Available Upon Request.**

THUNDER ARMOR OPTIONS

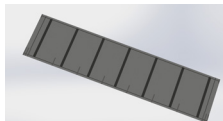

One Piece Tarps

- Improved durability
- No seams to snag
- Improved cosmetics-smoother appearance
- Faster open & close time

Reference Page 41-42

Reinforced Tarps

- Extra reinforcing over the tarp bows
- 12" strip of 18 oz. tarp material for added protection
- Used for tough applications where commodity may stick to tarp bows and become abrasive

Reference Page 52

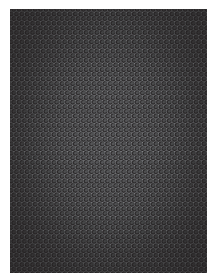

Ridgepole Tarps

- Ridgepoles support the tarp the length of the trailer
- Eliminates ridge straps and reduces the amount of tarp bows used
- Used to reduce the amount of commodity splatter and used for bucket loading and helps keep tarp tight

Reference Page 53

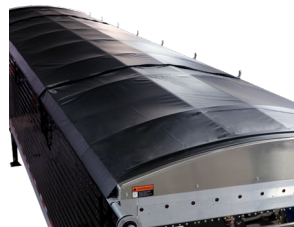

Mesh Tarps

- 10 oz. and 12 oz. Material Available
- Designed for rugged applications
- Used for hauling rock, sand, trash and any load that does not require to be waterproof or windproof

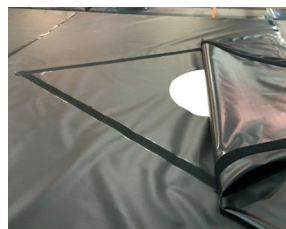

Reference Page 54

Clean Coat Tarp

- Acrylic glaze coating reduces commodity buildup
- Reduces cross-contamination between loads
- Fast & easy to clean compared to standard material

EPA Tarp with Flap

- Heat-Welded design with stitch reinforcement
- Large 18" reinforced round opening for load pipe
- Velcro seal with latch down on EPA tarp opening
- Ability to load in different weather conditions
- Used to meet EPA requirements for dust control

Reference Page 53

EPA Double Tarp

- Most watertight system
- Eliminates operator from having to latch the load hole flap
- Both tarps can be opened for total loading access
- Used to meet EPA requirements for dust control

Reference Page 53

Decontamination Flap

- All Heat-Welded Design
- Extra flap that keeps commodity from sticking to the top rail
- Helps eliminate cross contamination

Reference Page 53

General Return Policy

All products sold and shipped* from Thunderstone Manufacturing may be returned within 30 days of receiving it. All product(s) returned must be in original packaging, including all items originally packaged with the product (documentation, user's manual, accessories, etc). All products are subject to a 20% re-stocking fee. After 30 days all purchases are final.

*General return policy excludes all custom tarps or product(s).

ITEMS THAT ARE DEFECTIVE, DAMAGED IN SHIPPING, OR INCORRECT

If your item(s) is defective, is not the item you ordered, or was damaged in shipping you may return your item(s) to Thunderstone Manufacturing. You will be entitled to a full refund or replacement, which will then be credited back to your original method of payment only. If the return is a result of our error, defective materials, or damaged during shipping, you will not be charged for return shipping.

SHIPPING

All orders are shipped F.O.B. from Thunderstone Manufacturing, LLC, Lincoln, NE. All shipments are made by most reasonable means in accordance with size and weight of order.

WARRANTY CLAIM & POLICY

Thunderstone Manufacturing warrants each product to be free from defects in material and workmanship for a period of times set forth in the warranty table listed below. During this period of time, if a customer is unable to resolve a product problem and Thunderstone Customer Service determines the product to be defective, a Return Goods Authorization (RGA) will be issued. Follow receipt of an RGA number, the customer may be asked to return the product to Thunderstone Manufacturing, freight prepaid. This warranty is voided if the customer uses the product in an unauthorized or improper way, or in an environment for which it was not designed. This warranty is applicable to the first purchaser only.
